Copenhagen SC7

Space Copenhagen

2014

Safety precautions

- Dispose of plastic bag from packaging immediately and keep out of reach of children.
- The lamp is only intended for interior use.
- If the external cable or cord of the lamp is damaged, it must be replaced by the manufacturer or a similarly qualified person to avoid any potential hazards.
- Consult a professionally qualified electrician if in any doubt.
- Disconnect the electricity supply at the fuse box, before commencing work.

Contents

- A Opal shade
- B Lamp base
- C Screws

Tools needed

- Bulb type E27
- Canopy with metal ceiling bracket

Cleaning instructions

- Wipe surface of the shade with a soft, damp sponge or cloth, and wipe immediately after with a dry cloth.
- Do not use any abrasive cleaning tools such as steel wool, scouring sponges or stiff brushes.
- Never use strong cleaning agents such as white spirit, turpentine, household glass cleaner or cellulose thinners.
- Only wipe the inside of the shade with a soft, damp cloth or feather duster.

07/22

For indoor use only
E27 Maximum 100W
Bulb not included

&Tradition®

Please follow steps 1 to 4 to install the product.

Step 1 / 4

Ensure power supply is turned off and remove any existing lamp fitting. Locate the supply cable and ensure it is ready to be fitted to the connector block.

Mount the metal bracket securely in the ceiling with screws and wall plugs, appropriate for the ceiling of installation.

Step 2 / 4

To determine the right suspension height for the lamp, pass the safety wire through the metal bracket, find the desired height and make sure that the safety wire is blocked with the two screws. The excess wire can be cut after assuring the safety wire is blocked.

Pass the electrical cable through the metal bracket and tighten the two screws to secure it.

The safety wire must always be shorter than the electrical cable during and after installation.

Step 3 / 4

Use the terminal box inside the connection box to assemble the wires from the pendant with the wires from the power supply. Close the connection box and place it inside the canopy.

Step 4 / 4

Install the plastic canopy onto the metal bracket. Install the light bulb and enjoy the use of your new lamp.
